

Creature Design Challenge:

Draw A Mustache Monster

Your Creature Brief: Imagine a mustache that is alive on someone's face and jumps off said face to run around and survive on its own.

What would its profession be? What stories could it tell?

Think about hair texture (stringy, wavy, curly, straight, etc.)

Think about color, not all mustaches are black.

Think about the shapes of the character, and the amount of hair.

More hair ???

Maybe this could be a **BEARD BEAST!**

You decide bearded-guy or bearded lady. I'm doing both.

Do you think
Brian's Face
has a creature
living on it
hiding in plain site?
